BENCHMARKS

In most instances, finance journal rankings follow the Bristol Business School and other British universities.

In other cases, University of Queensland and Monash university rankings were followed.

Australian accounting journals are ranked in reverse order to British journal rankings

NB: British ranking is in reverse order to GBS ranking as illustrated

GBS Ranking: 1 (Tier 1), 2 (Tier 2) and so on.

All British Ranking: 4 (Tier 1), 3 (Tier 2), and so on.

Monash

The Monash Journal Listing was developed by synthesising ranking lists from a number of reputable sources. Accounting journals have been placed into deciles with 1 the highest, and the top 32 journals have been ranked.

Bristol

Bristol rankings have been extracted from lists in general circulation within the UK academic community. The "scores" have been standardized on a 1-4 scale, where 1 is low and 4 is high. A 4 grade signals "top international", a 3 grade signals "international", a 2 grade signals "top national", and a 1 grade "national". Any journal with a 4, 3, 2 or 1 grade follows a peer review process for articles submitted. As a general rule, the higher the grade, the stricter the process and the tougher the standards applied. Journals in the "world elite" class apply the very highest standards for review.
