Making Qualitative Research Impactful

Presented by

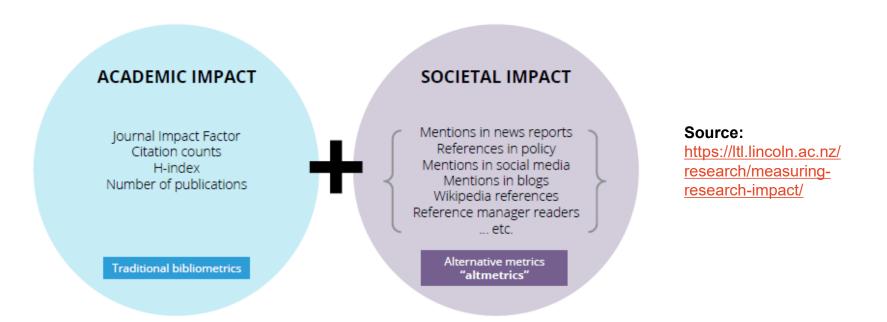

Professor Clinton Free

Associate Professor Carly Moulang

Perspectives on Research Impact

"It's a waste for talented people to work on issues of limited relevance to a limited number of people, when there are so many major problems in business and society."

Professor Leonard Berry

SERIAL

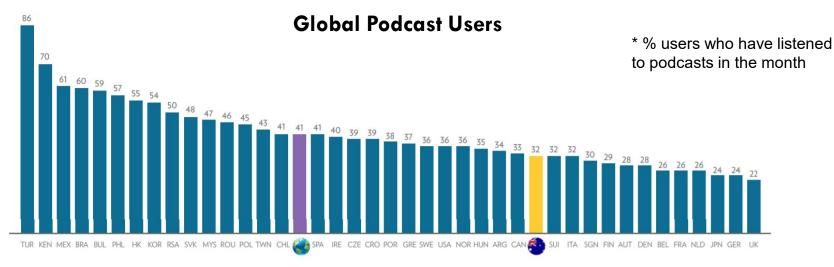

A new podcast from the creators of This American Life

- In the Autumn of 2014, Serial, a 12-part spin-off from the popular radio and podcast, This American Life, investigated the murder of a Baltimore high school student, Hae Min Lee. It was an automatic hit.
- A poll of Serial's listeners showed that:
 - Nearly 25% of listeners had never heard a podcast before
 - Nearly 50% went on to listen to podcasts on a weekly basis
 - A staggering 90% of those first-time listeners said it changed the way they thought about podcasts.
- This was all part of the so-called 'Serial Effect'.

In Australia, podcast listening* has increased by 18.5% in 2020 but is still at the lower end in the global market

Things to think about

Lean into opportunities to discuss your research in public

Create an impact plan for your research, so you know the impacts you want to achieve and for whom

Come up with a concept for your podcast that specifically meets the needs and interests of the people you think will benefit most from your research

Network with journalists/conte nt creators and discuss ideas
