Associate Professor Mark Wilson, Australian National University

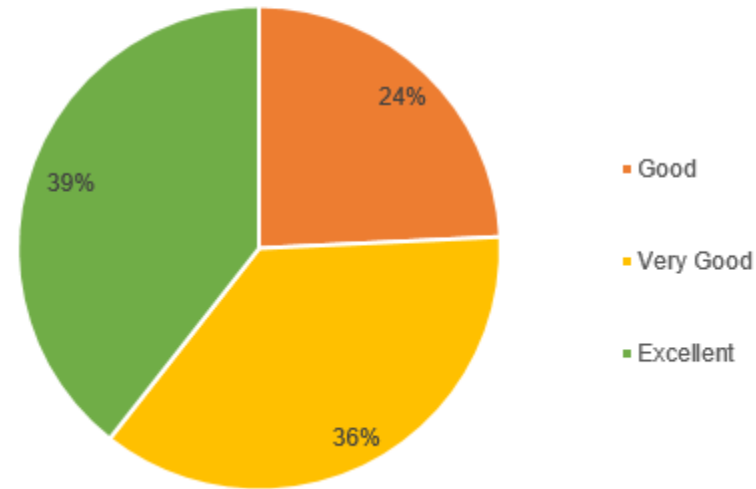

# Feedback Received

How would you rate the Symposium in terms of overall satisfaction with the Symposium?

Very Poor	Poor	Mediocre	Acceptable	Good	Very Good	Excellent
0%	0%	0%	0%	24%	36%	39%

How would you rate the Symposium in terms of overall satisfaction with the Symposium?

# Some Comments...

- I learnt a lot and made some self-reflection
- The feedback from academics and students was very fruitful for me. Interacting and networking with other students was helpful too.
- I liked the opportunity to network, learn about research ideas, future career options
- I loved having three different roles as presenter, discussant and scribe
- I appreciated the balance between a proper research focus as well as the casual nature of the program. It made fruitful conversations about research and networking happen more naturally than other more-over schedules, crowded, or formal conferences.
